

## SPORTJET 520 SHORTLISTED IN MOTOR BOAT & YACHTING AWARDS 2016

We are pleased to announce that the Sportjet 520 has been shortlisted in the Sportsboats and RIBs category of the 2016 Motor Boat Awards.

The awards are the industry's ultimate definition of excellence. The nine categories for boats cover all types and sizes of motor-powered craft from 18ft starter boats to 140ft custom yachts. The nominees are judged by the Motor Boat & Yachting (MBY) team and this year, the winners will be announced at the Rosewood London hotel on 11 January and online at [www.mby.com](http://www.mby.com) shortly afterwards.

Sales Director at Williams, Mathew Hornsby, said: "We were delighted with Hugo Andreae's review of our Sportjet 520 and glad he enjoyed his time on the boat so much. The Motor Boat Awards are a real highlight of the year for the boating industry and it's great that this model has been selected. We've seen a fantastic response to our Sportjet range this year and will have our fingers crossed for the ceremony!"

The Sportjet 520 offers a brand new concept for the sport RIB, combining the safety and fun of a jet drive with the high performance of the industry-leading BRP Rotax® 4-TEC 200 engine. Speed and practicality are both key to this beautiful craft, which has been designed to thrill any keen water skier or wakeboarder.
