

DIESELJET SOLAS

Discover the joy.

DIESELJET SOLAS

We make the world's leading jet tenders so you can make the memories.

Since we launched our first boat in 1996, we have been changing the game and challenging the boundaries of boat building. Today, we are recognised as the pioneers of luxury, high-performance jet tenders... and we're just getting started.

Compelled by a desire to explore, we remain dedicated to evolving our craft through cutting-edge technologies, materials and processes that are fit for the future.

Built with passion, unrivalled expertise and exceptional craftsmanship, our boats are made to give you memorable moments on the water.

Discover the joy.

We are evolving our
craft for a better future
and we want you to
share the journey.

Arrive in style.

DIESELJET SOLAS

When it comes to the perfect getaway, it's not just about the destination, it's also about the journey. We designed the DieselJet to be as sleek and stylish as it is spacious and practical, so your guests will be just as impressed with how it looks as they are with how it rides.

The DieselJet's ergonomic seats and sumptuous upholstery guarantees you the most comfortable of journeys, while its smart hull design keeps the waves in the sea and out of the boat. The DieselJet's ample space also means there's always plenty of legroom and luggage storage.

With the DieselJet, the journey to your yacht is a combination of grace and exhilaration – the perfect start to your guests' time at sea.

Made for each other.

The world's best yachts are built with Williams in mind, making our jet tenders a seamless extension of your onboard life, designed to fit and perform exactly how you need them to.

Our long-standing relationship with yacht builders means our tenders fit seamlessly with their garage systems, ensuring style, practicality and performance come as standard, but the experience of a Williams tender remains uniquely special.

The world's best
yachts are built with
Williams in mind.

Uninterrupted luxury.

The exceptional experience shouldn't stop at your yacht.

The DieselJet has been designed to ensure the luxury on board your yacht continues through to your tender.

With its abundance of space, ultimate dry ride, luxurious seating and high-performance Yanmar engine, the DieselJet is the ultimate combination of people-carrying practicality and rip-roaring performance.

And because it runs on diesel, like your yacht, there's no need to carry separate fuel loads.

Power, performance and peace of mind.

Painter line – 20m	Hand Held Searchlight 12V 50w	Telescopic boat hook
Buoyant line – 50m		

Build your SOLAS tender at williamsjettenders.com

Williams x SOLAS: The perfect combination.

The availability of SOLAS on our DieselJet 505, 565 and 625 ensures yachts weighing more than 500GT (gross tonnes), which require a SOLAS tender onboard, can choose the very best tenders on the market. All without compromising the signature Williams experience.

SOLAS stands for Safety of Life at Sea and is an internationally recognised safety standard in the construction of seafaring vessels.

While a SOLAS certification is mandatory for yachts of 500GT or more, we wanted to offer a SOLAS-certified option to those who demand the performance, manoeuvrability, and luxurious feel of a Williams tender.

As such, we offer three SOLAS-certified DieselJet tenders – the 505, 565 and 625 – to give you the signature Williams ride that you want with the stringent safety measures that you need.

Superior safety.

SOLAS regulations are rigorous – and in meeting them, our SOLAS tenders have some key differences to the rest of our range, such as the inclusion of a self righting system. In the (highly unlikely) event of your SOLAS tender capsizing, our self righting system inflates and rights the boat, so you can always feel confident and secure when out at sea.

As well as the self righting system, our DieselJet SOLAS tenders feature a SOLAS approved Yanmar Diesel engine and a fire-retardant laminate structure.

Why aren't all of our tenders SOLAS-certified?

While all our tenders are CE-certified, and more than meet industry safety standards, many tender owners don't need the additional functionality of a SOLAS rescue tender. But for those who do – especially those with yachts that weigh more than 500GT – we want to ensure they don't have to choose between SOLAS certification and the very best tenders on the market.

in rescue mode

DIESELJET

SOLAS 505

The DieselJet 505 is a master of comfort and practicality. Its cleverly engineered layout means eight passengers can stretch out and still have plenty of space to store their belongings.

As with all DieselJets, the 505 offers easy boarding, with its multiple boarding platforms and grab points – perfect for nighttime excursions or for those who are a little nervous at sea.

This sense of security carries on inside the boat, with hand holds and leg bolsters to keep you firmly in place, so you can focus on just enjoying the ride.

DIESELJET

SOLAS 565

If you own a superyacht over 35 metres, you need a tender equal in stature. That’s where the DieselJet 565 comes in. With its larger hull and abundant seating, the 565 mirrors the splendour you’re used to on your yacht. Which means its nine passengers can luxuriate in comfort, whether planing nimbly over the waves or slipping gracefully into harbour.

But if you want to put the throttle down, its 150hp Yanmar engine packs the signature Williams punch. And to make matters even more exhilarating, you can upgrade to a blistering 195hp engine.

DIESELJET

SOLAS 625

The pinnacle of style and comfort, the DieselJet 625 takes cruising in its stride, ironing out the swell with ease.

As the largest DieselJet, with a 140-litre (36 US gallon) fuel capacity, it carries up to 11 people in trademark style and comfort.

But don't be fooled by its generous size: the 625's thrilling performance delivers whip-sharp turns and high-speed manoeuvres. Just tell your wakeboarder to hold on tight – especially if you select the 230hp engine upgrade.

SPECIFICATION
